- Report Student Behaviors of Concern

Report student behaviors that are concerning, worrisome or threatening

If you think an immediate emergency situation exists, call 911 or the Crisis Center (920) 436-8888. If this requires immediate attention, contact Campus Safety at 403-3299.

On a college campus, behaviors of concern have often gone unreported. When a tragedy occurs, people come forward with small bits of information that, in retrospect, point to a specific problem. These bits of information when viewed together may be helpful in preventing tragic events and initiating assistance to a student.

Using the form below, please describe student behaviors of concern and related information including date, time and under what circumstances the behavior that you observed occurred. Even if you think a student is joking, please let us know. By reporting this behavior, you become an important link in securing a safe and healthy campus environment.

The information on this form is confidential and only members of the [St. Norbert College Behavioral Intervention Team \(BIT\)](#) have access to it.

Incident information

***Behavior of concern (e.g. student making statements or writing about harming a person or group; student talking and/or writing about death; student seems depressed, refusing help, etc.):**

Date of concerning behavior: January 1 2008

Time of concerning behavior: a.m.

Name of individual exhibiting concerning behavior (if known):

Other identification of student (campus location, license plate number, etc.):

If other, please indicate:

***Would you be willing to talk with a member of the Behavioral Intervention Team, should they have questions?** Yes No
